Forecast for Monday 22 Nov 2021

Weather: Dry overnight with clear skies and a widespread frost, perhaps a few shallow mist and fog patches forming in the glens. Mainly and bright start, but cloud thickening and lowering during the morning, becoming extensive across the area through the afternoon with patchy rain and summit snow. Cloudy with patchy rain and drizzle in the evening.

Chance of cloud free mountain/hill tops above 800m: 80% overnight and early morning, lowering 40% by midday and Nil to 20% by dusk.

Visibility: Very good or excellent at first, becoming poor or very poor at height during the day as cloud lowers onto the summits. Little or no significant cloud at first, but becoming extensive from the northwest during the day, bases widespread 600 to 900m by dusk.
